

*"There is a strong need for women to use their voices and their votes to influence what happens in our state."  
– Sandy Praeger, Kansas Insurance Commissioner, 2003-2014*

## Vision Statement

Our vision is to restore integrity, fiscal responsibility and balance to Kansas by electing moderate candidates to public office.

## Mission Statement

The mission of Women for Kansas is to recruit, motivate, and educate women who will advocate for moderate policies and actively participate in the process of electing moderates to public office.

## Core Values

- A fair, progressive tax system that adequately funds public services
- A court system free from political influence
- Equal rights for all citizens
- Protection of our environment against avoidable degradation and depletion of our natural resources
- Separation of church and state
- Advocacy of health care rights and opportunities
- Equal access for immigrant families
- Preservation of excellence in public schools and higher education
- Recognition of and support for the arts as vital to our quality of life

We have drafted a structure for our statewide organization. Our goal is for this women-only group to **form chapters** of two or more within individual communities and/or geographical areas, bringing like-minded women together to discuss, advocate and get involved in local issues of importance and to promote the mission and statewide goals of Women for Kansas.

*Great things never come from staying in your comfort zone.*
